PEACE VETO IS ASSURED, CLARK SAYS

Representative Kitchin Is Stricken by Paralysis at the Conclusion of Address in Opposition to the Measure

Resolution Will Carry Late Today by Safe Majority, Preliminary Test Ballots During Morning Indicate

By HERBERT W. WALKER.
United Press Staff Correspondent.
WASHINGTON, April 9.—President Wilson is certain to veto the resolution declaring peace, which is expected to pass the House late this afternoon, Champ Clark, Democratic leader, declared in today's debate on the measure.

The resolution will never become effective and the Republicans try to get it to pass the House late this afternoon, Champ Clark, Democratic leader, declared in today's debate on the measure.

Representative Ferris, Oklahoma, chairman of the Democratic congressional campaign committee, indicated that the President would sign the resolution.

President Wilson would be facing charges of impeachment if he were not to sign the resolution.

Representative Kitchin, North Carolina, suffered a stroke of paralysis just after making an attack on the peace resolution in the House today, Representative Lazzaro, Louisiana, who is a physician, said.

Despite his condition, Kitchin insisted that he be allowed to appear on the floor and vote against the peace resolution.

Kitchin's physician, Dr. L. J. Battle, said the paralysis was not serious, but that it would take two months to get him back to his normal condition.

Want a Baby? Blue-eyed Boy Is Homeless

This is BABY HENDERSON, whose mother, unable to support him and her other child, must give him to someone who can.

13-Month-Old Jack Needs Shelter; Mother Unable to Support Him.

Just thirteen months ago yesterday the stork visited the home of Mr. and Mrs. R. W. Henderson in Oakland, and when he flew away he left behind a blue-eyed baby boy. That part of it is an old story, as the stork is a very busy bird and he hasn't time always to investigate the homes in which he leaves gifts. He is also a poor bookkeeper and therefore he had no record to show that he had visited the Henderson home two years before and on that occasion left a boy, also. And without a record the stork had no way of knowing that Misfortune and Misery stood hand in hand at the back door of the Henderson home awaiting a child who would be a burden to the parents.

But Misfortune and Misery climbed through the window finally, and the home of the blue-eyed baby, or Jack, as he was named, was not a happy one. Jack's father was not a bad man, they say, but one day he left the house and never came back. His mother, who was a widow, had to support the boy and his mother, and then sought employment. She found that while working she could not care for her children. She placed Jack with Mrs. W. Geibel of 522 Thirtieth street, while a home for Jack's brother was found near the hotel where Mrs. Henderson rented a room.

Jack was nine months ago, Mrs. Geibel, who cares for Jack, is moving away to Arizona and she cannot afford to take Jack with her, and Mrs. Henderson does not make enough money to pay for the care of both her children. So they are going to find a new home for Jack—one in which he can grow up and be sent to school and wear nice clothes like other boys.

Mrs. W. Geibel, who is stopping at the Central hotel at 522 Thirtieth street, says she is willing to give Jack away if someone, some responsible person, will adopt him. The letter from Mrs. Geibel is as follows:

"Do you think you could find some one who would like to adopt a blue-eyed baby boy? He is thirteen months old and is a dear little fellow. His mother works, but it is hard for her to earn enough to support both Jack and his brother. I have taken care of Jack for nearly nine months, but can't keep him any longer as I am going to Arizona Saturday.

"Mrs. W. Geibel, 522 Thirtieth street, Oakland. And that is the rest of the story. Jack wants to find a home by tomorrow.

Serious Breach Develops in Allied Ranks Over Action by Paris, With Italy and Britain Voicing Opposition

COBLENZ, April 9.—(By Associated Press.) Notification was given today to the Belgian military mission here of the formal participation of Belgium in the French action in occupying Frankfurt. Belgium is sending a detachment of troops with the French to mark its co-operation, it is announced.

BERLIN, April 9.—Two battalions of the Baltic marine brigade at Doberitz camp near Berlin have mutinied, killing several officers, it was reported here today. The brigade was one of the chief supporters of the recent Von Kapp insurrection. It refused to disband as ordered by the government after the Von Kapp movement dissolved.

BRUSSELS, April 9.—The Belgian government has decided to send a detachment of troops to occupy Frankfurt with the French in their occupation of German cities in the neutral zone. The Belgian troops will be withdrawn as soon as the German troops are sent to the Rhine district, in accordance with the peace treaty.

BERLIN, April 9.—French reinforcements have been sent to Frankfurt, according to the Tagblatt. The newspaper said three regiments of infantry and many tanks crossed the Rhine yesterday from Strasbourg for various destinations in German territory.

LONDON, April 9.—France acted without the approval of Great Britain, Italy or the United States when she occupied the German Rhine cities, according to authoritative information here today. The allied attitude was made known following two long sessions of the British cabinet.

The Allied alignment, in the opinion of observers here, had been split, at least temporarily, with Great Britain and Italy on the one side, and France and Belgium on the other.

A dispatch from Brussels said the Belgian government, with the approval of King Albert, had sanctioned the French move and agreed to send detachments to assist the French.

Great Britain, it was said, has entered into negotiations with the French government to bring about an adjustment of the delicate situation created by what the British statesmen consider France's hasty and unjustified action in the Rhine advance.

British position, according to information today, was that France should have accepted Germany's pledge that she would withdraw troops from the Ruhr Basin as soon as order was restored at its face value.

At all times he was deeply interested in the affairs of the University of California and in 1897 he gave \$50,000 as a scholarship fund. 28,000 Rail Men On Strike; Senate Orders Investigation

LOCAL LINES PUT BAR ON PERISHABLES

Emergency Measures Put in Effect About Bay to Meet Situation; Produce Firms Mobilizing Motor Vehicles

Passenger Service Operates Delayed Trains; Switchmen Form Association to Deal With Railroads on Wages

With the freight traffic of the Southern Pacific and Western Pacific demoralized and passenger travel somewhat delayed, the strike of switchmen and yardmen, which last night spread to the bay cities, has called for emergency measures and an embargo on perishable goods. The Santa Fe reports conditions almost normal.

Long lines of loaded hand trucks at the Southern Pacific mole and on the ferryboats this morning gave the commuters a visual demonstration of the effects of the strike. By noon they had been cleared. The Overland Limited was consolidated into one fourteen-car train and pulled out over an hour late.

SHIPPERS MOBILIZE ROLLING EQUIPMENT Local shipping and produce men were on hand with trucks early in the day and have been mobilizing an added equipment in rolling stock to meet the situation. They say they do not fear a food shortage.

The Southern Pacific summarizes the situation by divisions as follows: Coast division—Situation unchanged in San Francisco yards. Mornings passenger trains in and out on time, except Lark, which was two hours late from Los Angeles. No trouble yet at San Jose, Watsonville Junction or San Luis Obispo.

SAINT JOAQUIN DIVISION—SITUATION same in Oakland yards. All passenger trains moving, out-bound trains being a little late. Two sections of No. 2, the Overland Limited, left in a passenger train in and out on time. Costa division was reported as uncertain, and it was said that in the event of any trouble at that point passenger trains would move via Tracy.

SACRAMENTO DIVISION—All switchmen out at Roseville, except yard managers. No trouble at Sacramento or Gerber. Trains moving. Salt Lake division—Bulk of switchmen reported out of Ogden, but passenger trains moving through this terminal with little delay.

STOCKTON DIVISION—Tracy only point affected. No delay to trains. San Joaquin division—Switchmen out at Fresno, Bakersfield and Madera. Emergency crews keeping equipment moving. Los Angeles division—Strike reported spread to Santa Barbara during the night. Only passenger trains moving.

TWENTY LOCAL MEN QUIT WESTERN PACIFIC Twenty men were reported to have left the Western Pacific employ in Oakland last night and approximately the same number of Santa Fe men here, making the ordinary movement of freight impossible.

A strike of all of the yardmen and switchmen on the Denver and Western Pacific's freight connection with that line at Salt Lake City, it was announced.

There was no walkout this morning at the Richmond yards where the Santa Fe Railway Company, according to information given out by the company terminal heads here. Between twelve and fifteen yard men had gone on strike at the Santa Fe Railroad yards in San Francisco up to noon today, according to a statement issued by G. W. Lupton, superintendent.

ROADS TRYING TO SUPPORT OF PUBLIC With word received from the East that the Brotherhood of Railway Trainmen, under which organization the yardmen have held their charter, is determined to deal with the strike, the railway officials are looking for some action on the part of the men or the government to afford relief. The roads take the position that, in any event, the service must be restored.

It is estimated that close to 1000 men are out in San Francisco, Los Angeles, Oakland, Colton, Bakersfield, Mojave and Fresno.

28,000 Workers Out; 50,000 Idle in Chicago Stockyards

More than 28,000 railroad men were idle today in the United States as the result of "unauthorized" strikes, according to unofficial estimates. In addition, thousands of other workers in packing houses and industrial plants were idle as the direct result of the strikes. The situation, summarized, follows:

Kansas City—Unofficial estimates place the number of railroad switchmen on strike at 1050. St. Louis—L. L. Burlingame of the St. Louis Terminal said strikers numbered 4000. Union officials claimed 8000 out.

Chicago—Railroad switchmen on strike unofficially estimated at 5000 with 50,000 packing house and stockyard workers idle. New York—Railroad officials estimated 2000 yardmen and switchmen on strike in the New York district.

Pittsburgh—Fifteen hundred yardmen out, according to claims of "rebel" union leaders. Toledo—Strike leaders claimed 2000 men idle. The railroad officials, however, place the number at 600.

Los Angeles—Estimated 1400 men out. Fort Wayne—Three thousand Pennsylvania shopmen reported out. San Francisco—Unofficially reported 1000 men out in San Francisco bay district.

Union Men Slugged for Peace Plea

Sabotage, Violence Urged at Union Meeting by C. Y. A. Organizer.

CHICAGO, April 9.—One switchman was shot and several slugged at meetings of the striking railroad men last night, police learned today. John Kintz, a striker, who proposed that the men return to work, was shot, it was reported. He was spirited away in an automobile by friends.

Sabotage and violence was advocated by one of the speakers, E. C. Esty, a C. Y. A. organizer who participated in the Gary steel strike and several labor disturbances here. "They call me a rebel," he told the strikers. "I'm proud to be a rebel. In 1910 I had charge of a railroad strike in the Twin Cities—Minneapolis and St. Paul. The men all went out and stayed out."

"I went down to the I. W. W. headquarters and got some help. Then one day four passenger trains were wrecked. The next day seven freight trains were wrecked. Then we sent word to the railroads that if they did not come across with a new roundhouse. They did not answer—we did! The roundhouse was torn down."

"Then the railroads begged for mercy and asked to meet us. We told them to come to us. There was a meeting. The union drew up a contract and the railroad refused it. The next day we blew up a bridge. That night an ice jam formed in the river and tore down the rest of the bridge, so they don't know to this day who did the job. But we won the strike."

"I did ninety days in jail for blocking the mails. I got off light because I told the judge I did not know the law. But of course I knew it then as well as I do now."

STRIKING SWITCHMEN OF MANY RAILROADS REPORT BACK TO DUTY

Chicago Stockyards Are Practically Shut Down, With 40,000 Men Idle; No Shortage of Meat Yet

UNIONS IN HOPES OF BREAKING STRIKE (By Associated Press)

CHICAGO, April 9.—Striking switchmen, who have been on strike here for nine days, began returning to work this morning. Brotherhood officials, who have been fighting the "illegal" walk-out of their men, do not claim that the strike is broken, but were much encouraged by reports from several roads that the men, in small groups, were reporting for work.

The Chicago junction railway, the Belt line connecting the stock yards and packing plants with the trunk lines, was one of the first to report. Eleven engine crews were at work this morning, the report said, as compared to three yesterday.

While the switching and freight situation showed improvement, the congestion in the yards grew so great that seven of the eight railroads entering the Dearborn street station are unable to run passenger trains down town. They are discharging passengers at suburban stations to complete the trip on elevated or surface cars.

Only the Santa Fe was running into the station this morning. The department of justice has begun an investigation of the railroad strikes in Chicago and other cities to determine whether action can be taken under the Lever law. It was announced today at the office of Attorney General Cummings.

Such a lockout will mean a tremendous curtailing of lumber production, and that prices, which have already reached unprecedented heights, will soar still higher.

Seizure of Vladivostok Was Result of Japanese Surprise

VLADIVOSTOK, Monday, April 5.—(By the Associated Press).—Occupation of Vladivostok by Japanese forces today was the result of well prepared surprise maneuvers. At 1 o'clock this morning Japanese troops landed from every Japanese station. The "red" headquarters was covered by machine guns while the Russians were celebrating Easter. Hostilities opened at the railroad station. The Zenstvo building was shelled by Japanese one pounders. The Japanese battleship in Vladivostok harbor assisted the early morning attack by use of searchlights on the buildings the Japanese shelled.

A severe brush occurred at the inter-allied barracks compound. Three hundred Russians were penned in by machine guns apparently mounted on the Japanese Red Cross hospital. They were captured and disarmed without resistance.

Two unnamed Czech soldiers going into their quarters were killed by fire from these machine guns alongside the American Red Cross barracks. The Japanese command presented six demands upon the Russians the day after Brigadier-General William S. Gray, commander-in-chief of the American expeditionary forces, left Vladivostok. A conference was held Sunday when United States Consul David B. MacGowan, representatives of the American Red Cross and Y. M. C. A. and others visited Captain W. C. Watts of the U. S. Albany and went over the situation.

Previous advices made public by the Japanese military attaché at Washington reported that the Japanese attack on Vladivostok resulted from "threatening and aggressive acts of a portion of the Russian army." The last of the American expeditionary forces under Brigadier-General Graves left Vladivostok Thursday, April 1, four days before the Japanese attack.

Berkeley Requests Water Supply Notes

BERKELEY, April 9.—The Berkeley Council today passed a resolution calling upon the East Bay Water Commission to furnish it with a copy of the engineer's report on available water supplies. This action was taken because Berkeley has withdrawn from the association and it was feared it would be overlooked when the reports were passed out. Mayor Louis Bartlett also introduced a resolution accepting the offer of the San Francisco city engineer to aid in the collection of data concerning the valuation of Marin and Alameda distributing systems that Berkeley might be interested in at some later time. This part of the resolution was passed, although the councilman rejected a clause which would have empowered the mayor to employ assistants to aid in the survey. It was held that no definite action should be taken until the commission's report is received.

School Construction Work Is Apportioned by Report

An important step in the progress of the school building program was taken last night when the architectural committee of the board of education submitted to the board of education a report on the distribution of construction jobs on the new schools to be erected under the recent \$5,000,000 bond issue.

Sonora Runs Trains With S. P. Strikers

NOGALLES, Ariz., April 8.—Prior to the departure today of Governor Adolfo de la Huerta for Hermosillo, the state capital, the government of the State of Sonora took charge of operation of the Southern Pacific to Mexico Railroad, manning trains with the strikers themselves and paying them the wages and conceding the hours demanded in the complaint of the trainmen against the road.

FIRST CONCERT BODES SUCCESS

By ROY HARRISON DANFORTH

The experimental stage was passed by the Berkeley Orchestra when it gave its initial concert last evening in the high school auditorium. To day it is an assured fact that speaks well for the industry of Anton H. Bode, conductor, and his associates, and for the musical tendencies of the college city.

Whatever its objective such organization ought not to exist if it can not do its work well. It is not a case wherein the end justifies the means. But last night there came a coalition of means and ends, the tying of thorough-going, capable musicianship to an evidently hearty desire to improve the community's opportunities and appreciation. And it was satisfying from beginning to end.

Flotow's "Martha" overture, two dances of Tschikowsky and the first "Carmen" suite were typical of the program. They were played with enthusiasm, with much beauty of tone and a surprising volume for so small a group. The fundamental excellence of a capable string orchestra was shown in the rendition of Massenet's "Last Dream of the Virgin." The choir movement from Haydn's "Military Symphony" was also played. The Berkeley orchestra is something that will grow. It deserves a wide and earnest support. If it could play as well on a first occasion as it did last evening, such support is justified by its artistic deserts as well as by community loyalty.

ASKS NEW FACTS ON TWO SALARIES

District Attorney Ezra Decoto today returned to the Oakland school board for further information on the report of Superintendent Fred Hunter which showed that five members of the school department were drawing two salaries, one for teaching and the others for their duties in the business department. Decoto declared he could not determine the legal point at issue with the meager information given him.

The report was made and subsequently turned over to Decoto by the school board as the result of charges made by Van W. Pratt, former business manager of the department. The report showed that Secretary Lloyd D. Barzee, Auditor John W. Edmondson, Purchasing Agent Donald K. Albert, C. Stead, secretary to Superintendent Hunter, and Board Clerk were the employees drawing double salaries.

Superintendent Hunter claims these men are entitled to hold the double positions, but Director Fred Campbell insisted on a legal opinion being rendered.

Unable to Take Dead Wife's Place; Divorced

Mrs. Regina Connor, who told the court that she seemed unable to take the place of her husband's first wife or to take care of his child to his satisfaction, was today granted an interlocutory decree of divorce with a cash settlement of \$200 from Clinton W. Connor, a candy salesman. The decree was granted by Judge A. F. St. Sure. They were married about two months after the death of Connor's first wife, and lived together for a month, Mrs. Connor said.

JAIL FOR SALE ADVERTISED BY MINING TOWN

BAKERSFIELD, April 9. — Want to buy a nice jail? Randsburg, the mining camp 100 miles east of here, has no further use for its prison and has advertised it for sale. Randsburg, now a settlement of several hundred persons, was once one of the liveliest gold mining camps in the state. Discovery of silver mines near Randsburg recently, it is believed, will bring the camp back into some of the prominence it enjoyed years ago, but the passing of the saloons, it is said, eliminates need of a jail.

Barrows Silent on Legion Action Waits Return Home

PORTLAND, April 8.—"The action of the American Legion Post at San Francisco asking for my resignation, I suppose, was inspired by an article I wrote for the California Legion magazine," declared Dr. David P. Barrows, who is in Portland to deliver an address before the Oregon Civic League.

"But as to their demand that I resign or discontinue my opposition to the present bonus plan favored by the American Legion, I shall have nothing to say until I return to California."

Barrows favors vocational training, home aid and land settlement measures, but any plan that would give former soldiers and sailors the opportunity to ask a bonus or pay readjustment is wrong, he believes. "Ex-service men are like every one else," continued the California educator. "Human nature would impel them to choose the money. They would spend it in a short time and there would be no permanent benefit to either them or the country."

Bolshevism was defined as a dictatorship limited to a very few who have consolidated all power in a minority and act through coercion and force to get production, by Col. Barrows in an address before the Oregon Civic League.

Concerning politics, Dr. Barrows said:

"California offers two candidates for the presidency this year—both of them, in my opinion, remarkable men. I have had the pleasure of knowing both of them intimately. Mr. Johnson while governor of the State and Mr. Hoover while head of the commission for Belgium and Northern France, when a member of that committee in 1918, and for a time in charge of the distribution of

food supplies for the city of Brussels.

"While both are representative men they are totally different men and represent almost opposite policies."

German Helmets Are Used to Pave Road

CROYDON, Eng., April 9.—Ten thousand German army helmets have been crushed into the mud at a salvage depot here to make a pathway for captured German guns and other heavy traffic. It would have cost more to sell them as souvenirs than would be derived from the sale.

Band Congratulated by Prison Players

Congratulations for the success of the band in the past and good wishes for the coming concert season were received this morning from members of the San Quentin band by Secretary Henry E. Vogt of the Park board, manager of the Oakland Municipal band, which last Sunday gave its opening public concert in Lakeside park. The letter also contains a compliment for the work of the band leader, Paul Steindorff, and the band manager, Vogt. The communication was signed by forty-four members of the band.

Council Hears Plan of Uniform Motor Law

Details of a nation-wide campaign for uniform motor vehicle laws were placed before the council in a communication from Henry Meixell, secretary of a New York motor vehicle conference committee.

It is the plan of the committee to have each municipal government and each State legislature enact local and State legislation of the same form. The project contains several pronounced changes from existing city ordinances and State laws.

Prof. John H. Austin of Chicago, who now has offices at The Owl Drug Store, 14th and Washington, has devoted over forty years to the study of hair and scalp troubles. During this time he has found that only with the aid of a most powerful microscope is it possible to determine the exact trouble with which the hair or scalp is afflicted.

People who really value their hair have come to consider a hair specialist of as much importance as doctor or dentist, for how can anyone without the knowledge or experience distinguish between such scalp disorders as seborrhea, dandruff, eczema, itching scalp, alopecia, etc., etc.

Prof. Austin says that the use of mange cures, dandruff cures, hair tonics, and elixirs is like taking medicine without knowing what you are trying to cure.

Men and women troubled with scalp ailments should see Prof. Austin, let him turn a powerful microscope upon their hair and show them these parasites that destroy the hair cells and roots, and they will be convinced that the particular trouble must be known before each case can be intelligently treated.

During the past two years Prof. Austin has taught thousands of Owl Drug Store customers how to stop falling hair, remove dandruff, relieve itching scalp and grow new hair.

NOTHING WRONG EXCEPT "RUN DOWN"

Heart All Right—Lungs All
Right But Blood Weak

No Energy Or Enthusiasm

That's When You Need Pepto-
Mangan—the Red Blood Builder

When you feel weak and almost
sick, see a doctor and find out what
is wrong.

It may be a serious illness. But
in many cases the doctor finds
nothing really wrong except a gen-
eral run-down condition due to the
need of stronger, richer blood.

For over thirty years physicians
have recommended Gude's Pepto-
Mangan to restore weakened blood
to its normal healthy state.

Pepto-Mangan imparts to the
blood the elements it needs to build
up vigorous men and women. Chil-
dren whose blood is impoverished
become listless and pale and fail to
thrive.

Pepto-Mangan creates a
supply of nourishing red blood that
makes the cheeks glow, the eyes
sparkle and brings back the energy
for play or studies.

Pepto-Mangan is obtainable in
liquid or tablet form, whichever
proves most convenient. Both forms
possess identical medicinal quali-
ties.

There is but one genuine Pepto-
Mangan and that is "Gude's." Ask
your druggist for "Gude's" and
look for the name "Gude's" on the
package. If it is not there, it is not
Pepto-Mangan.—Advertisement.

Careless Shampooing Spoils the Hair

Soap should be used very carefully,
if you want to keep your hair look-
ing its best. Most soaps and pre-
pared shampoos contain too much
alkali. This dries the scalp, makes
the hair brittle, and ruins it.

The best thing for steady use is
Mulsified coconut oil, which is
(which is pure and greaseless), and
is better than anything else you can
use.

One or two spoonfuls will
cleanse the hair and scalp thoroughly.
Simply moisten the hair with
water and rub it in. It makes an
abundance of rich, creamy lather,
which rinses off easily, removing
every particle of dust, dirt, dandruff
and excessive oil. The hair dries
quickly and evenly, and it leaves the
scalp soft, and the hair fine and
silky, bright, lustrous, fluffy and easy
to manage.

You can get Mulsified coconut oil
shampoo at any pharmacy, it's very
cheap, and a few ounces will supply
every member of the family for
months.—Advertisement.

CROP CONDITIONS IN STATE GOOD

Crop conditions in California are
much more favorable than was ex-
pected one month ago when the lack
of rain caused a widespread fear that
there was to be a very serious water
shortage. The weather and crop bul-
letin issued by the United States De-
partment of Agriculture points out
these facts:

Frost and hail did some damage
to almonds and apricots in the Sacra-
mento valley and in the eastern and
northern sections frost damaged
unprotected cherries, prunes and
early peaches. While there is a scar-
city of old hay and the forest alfalfa
crop was light, although of excellent
quality, the second crop promises to
be much heavier. The indications
are that the citrus crop is to be ex-
ceedingly heavy.

The live stock condition is good,
the ranges in the interior are fair
and on the coast they are good.

case of rain, when it would be held
in Harmon Gymnasium.

Among those to take part are
Tina Lerner, Russian piano virtu-
oso, Alice Gentile, mezzo-soprano,
Lawrence Strauss, California tenor,
and Vladimir Shavich and the San
Francisco Symphony Orchestra.

STAGE STARS WILL AID DAY NURSERY

Harkening to call of scores of Oakland's children for opportunity to play while their mothers are at work during the day, a group of Eastbay society women have arranged for an entertainment at the Liberty theater next Wednesday night for the benefit of the Day Nursery conducted by the Little Sisters of the Holy Family in West Oakland. Mrs. William Thornton White and Mrs. Walter Leunert are directing the arrangements.

Included in the professional part of the program are Miss Maud Fay, operatic singer; Robert Newell, piano player of note, and Mrs. Leunert, known to the theater-going public as Lucille Cavanaugh, classic dancer, as well as feature and comedy acts from the Orpheum and Pantages circuits. Debutantes and substitutes from the Piedmont and Claremont sets will appear in a series of tableaux and specialty numbers. The University of California will play during the evening.

Through the performance the society women hope to realize \$2000 for the nursery.

"TICK-TACK" OF BOYS OCCASIONS BURGLAR ALARM

"Burglars are cutting the glass out of the window. Send the police quick," said an excited voice over the telephone wire early this morning.

It was a woman's voice, and she gave her name and address as Mrs. H. A. Radford, 3449 Sixty-sixth avenue.

Police rushed to the scene in a car but no trace of the burglars could be found and the glass in the window was undamaged.

As the police were about to leave, a peculiar noise was heard from the house next door.

"There they are, over there—the same burglars," said Mrs. Radford. The police dashed to the next yard and found two small boys engaged in the old pastime of "tick-tack."

MAINE SCOUTS TO MUSTER
Practice drill and instructions for the parade to be held in San Francisco April 17 will be given at a muster of members of the American Jr. Naval and Marine Scouts and the California Naval Cadets at Civic Center in San Francisco on Tuesday, April 13.

PORCH CLIMBERS WORK
Burglars early this morning climbed to the roof of the rear porch at the home of M. Mautino, 2275 One Hundredth avenue, and pried open a second-story window. Jewelry and money totaling \$300 were stolen.

Screen Adds to Popularity of O. Henry Stories

One of the greatest tributes to the genius of O. Henry is the fact that he has broken all records in producing material for the moving picture screen.

Hundreds of O. Henry's stories have been done into pictures and more are being produced. It has come to be recognized that only the most dramatic fiction can be successfully transferred to the screen. In this also O. Henry stands paramount.

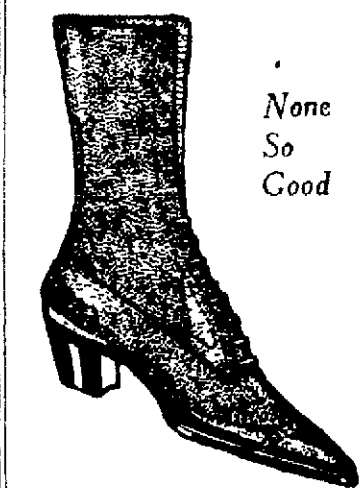

For the first time, beginning next Monday, newspaper readers will have the privilege of reading O. Henry's complete works, in installments of a finished story each day of the week, when the OAKLAND TRIBUNE starts the series with "A Sacrifice Hit."

Mystery Plane Takes Sudden Dive in Dark

DURKEE, Ore., April 9.—An unidentified airplane was seen to fall in the rugged country about three miles south of here last night just before dusk. The plane, evidently encountering a windstorm, took a sudden dive. A searching party set out immediately but was forced to return on account of darkness. The party set out again at daybreak in an effort to locate the plane. The fall was witnessed by fifteen or twenty persons. There is no possible landing place at the point where the flyer is believed to have fallen.

CHIEFS OF UNION ORDERED TO JAIL

PITTSBURG, Kan., April 9.—Alexander Howat, president of the Kansas Coal Miners, was sentenced to jail for contempt of court by Judge Andrew J. Curran of the Crawford county district court today.

Howat was found guilty of contempt for refusing to testify in the investigation of the coal mining industry now being conducted by the Kansas court of industrial relations here. In addition to Howat, Judge Curran also found August Dorchy, vice-president, Thomas Harvey, secretary-treasurer, and Robert Foster, district auditor, guilty and gave them the same sentence he gave Howat, to the Howat hearing.

PRISONER BREAKS FROM CHAIN GANG

Wesley Roberts, working on the chain gang last night in the vicinity of the Albers mills on the water front, escaped from custody and is still at large.

The chain gang was in charge of Officer Peters. When Peters discovered the break the escaping man was already several hundred feet away and running rapidly across the mud flats. Peters fired twice but Roberts did not stop.

Four miles of the district were idle this morning on account of the Howat hearing.

Grip, Influenza

Hamlin's Wizard Oil a Reliable, Antiseptic Preventive

During influenza epidemics spray the nose and throat several times a day with one part Wizard Oil and two parts water, using an atomizer. If you haven't an atomizer, gargle the throat and sniff the mixture up the nose. This treatment sets up an antiseptic wall of defense against "flu" germs.

Chest colds and sore throat lead to grip. Stop them at once with Wizard Oil before they can develop into dangerous influenza.

Get it from druggists for 30c. If not satisfied, return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30c at druggists. Guaranteed.

"Tell them that you saw it in The TRIBUNE."

OVER-EATING

A HIDDEN DANGER

It is as dangerous to overload the stomach—thereby increasing the work of the liver and kidneys—as it is to sit on a powder keg! If the stomach does not function properly, the food digested is not assimilated and taken up by the blood.

A stomach alternative and blood maker that has been favorably known for the past 50 years is Dr. Pierce's Golden Medical Discovery.

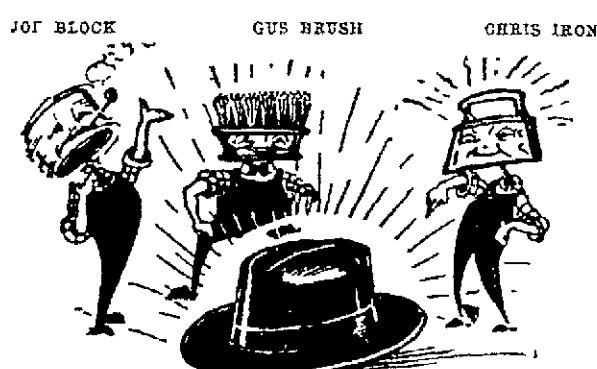

An imitation of nature's method of restoring waste of tissue and impoverishment of the blood and nervous force is used when you take an alternative extract of herbs and roots, without the use of alcohol, like Dr. Pierce's

Golden Medical Discovery. This vegetable medicine coaxes the digestive functions and helps in the assimilation of food, or rather takes from the food just the nutrient the blood requires. This "Medical Discovery" gives no false stimulation, because it contains no alcohol or other narcotic. It helps digestion and the assimilation of such elements in the food as are required for the blood.

Los Angeles, Cal.—"I will gladly tell of the relief and cure Dr. Pierce's Golden Medical Discovery gave me. I was sick with all troubles of stomach, liver, etc., and La Grippe with all its attending ailments. When all else failed Dr. Pierce's Golden Medical Discovery did the good work. I also took 'Pleasant Pellets' for biliousness, with grand success. I write with gratitude to tell others of the relief that is in store for them. Do not delay but hasten to get the above remedies if suffering from any indisposition."—SAMUEL KALISKY, 978 Euclid Ave.

WIELER IN JAIL PENDING APPEAL

Obtaining a writ of probable cause from Judge James G. Quinn on an appeal to the higher court, John G. Wieler, convicted of criminal syndicalism, will remain in the Alameda county jail until his appeal has been decided. This is the opposite course taken by James Molloy, convicted on the same charge, who went to San Quentin pending his appeal so in case it was denied he would have that much of his sentence already served. In remaining at the county jail Wieler will receive no credit for the period he is held there, but will have to serve his full term in the penitentiary in case he should lose on appeal. Attorney T. L. Christianson has declared that Wieler will take his case to the United States Supreme Court if necessary.

Moose to Hold Public Installation Tonight

Oakland Lodge No. 324, Loyal Order of Moose, will hold its first public installation tonight, beginning at 8:30 o'clock at the Moose club rooms at Twelfth and Clay streets.

The program for tonight's installation will be an elaborate one: "Purity, Aid and Progress," "Faith, Hope and Charity" and "Wisdom" will be portrayed in character and music as a feature of the installation ceremony. Lodges of Stockton, Modesto, Sacramento and Alameda county will send delegates.

At 9 o'clock following the installation a revue will be held in which a score of little girl players will dance and sing. Mignon Laville, who played in "It Happened in Peru," will feature the presentation of "Purity, Aid and Progress."

Charles A. A. McGee, Walter Walsh, director of the San Francisco lodge, and Frank Monahan, supreme councilman and one of the governors of Mooseheart, will be in attendance and will take a part in the ceremony.

Following the entertainment a dance will be held.

Suit to Start Fight on Petersen Verdict

Suit to overturn the verdict of the civil service board Tuesday night reinstating Walter J. Petersen in the position of captain of inspectors in the police department from which he was recently ordered removed by Commissioner F. N. Morse, will be started as soon as a transcript of the testimony taken at the hearing can be obtained. H. L. Hagan, city attorney, announced today.

Morse yesterday announced that the next move in the controversy would come from Captain Petersen in the form of a writ of mandate to compel his reinstatement, but a conference late yesterday between the commissioner and Hagan resulted in the latter being directed to sue out a writ of review to have the superior court survey the hearing of Tuesday night and the civil service board's judgment.

Brewster, who is employed by the United Parcel Service company, was found unconscious by the landlady of the rooming house in which he lived. The police were called and they found a broken gas pipe had been disconnected by carpenters who had been remodeling the building.

AUTOISTS KILL FOUR FLAGMEN AT CROSSINGS

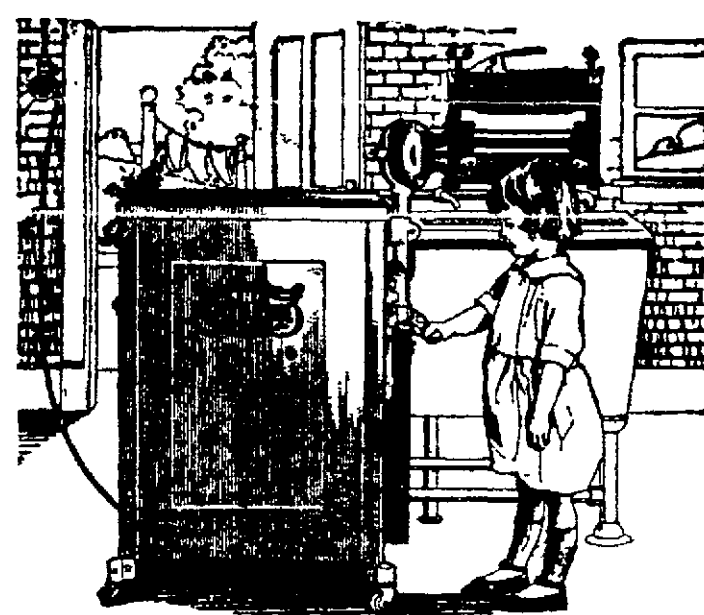

Four flagmen have been killed and seven injured in the past three weeks by the autoists they were employed to protect, according to a statement just issued by the "Safety First" committee of the Oakland Traction company, which has issued a plea that autoists forbear from trying to "beat the train" at crossings. The casualties were all at the important downtown crossings. The victims were all struck by autoists and not by trolleys. "It is a sad commentary that these men were killed and injured by autoists when their job is to protect autoists from train accidents at crossings," says the statement.

Taken to Oregon to Serve Jail Sentence

Julius Wilbur, manager of a local auto company, who was convicted four years ago of selling liquor in Oregon in violation of the prohibition law there, is today en route to Oregon City to serve a sentence of six months. A writ of habeas corpus obtained by Wilbur after he was arrested on a telegraphic warrant was dismissed this morning by Judge James G. Quinn and Wilbur was taken into custody by the Oregon authorities, who had obtained extradition papers. Wilbur's arrest followed the loss of an appeal to a higher court and the refusal of Governor E. J. Olcott of Oregon to grant a pardon.

National Woman's Party Is Scored to State Mothers

By EDNA B. KINARD.

BURLINGAME, April 9.—Protest against the formation of a national woman's party made by Mrs. Max Sloss of San Francisco, member of the State Board of Charities and Correction, created a sensation in the ninth annual convention of the second district, California Congress of Mothers, in session here. Denunciation of the movement to "encourage anybody to throw back into sex lines the equality for which women have fought," met with loud applause from the 500 mothers assembled in the Howard street school.

"It is a retrogression," declared Mrs. Sloss. "If women insist on sex party lines they will never get the equality for which they strive."

Appointment of women members to all commissions and boards was urged by Mrs. Sloss. She appealed to mothers to open their homes to foster children.

"Foster mothers can do more for the State and community by making the schoolroom for child into a proper, well-nourished citizen than in buying herself outside her home," concluded the speaker.

SCHOOL REFORM SOUGHT.

Fixed seats in right rows in the school room will be abolished if the second district mothers have their way. A resolution was introduced asking the selection of "social" furniture for classrooms. Thirty subject matters for State legislation urged upon the parent-teacher organizations by Superintendent Cloud.

Dr. Jessie A. Russell of Glendale, president of the California Congress of Mothers, delivered the principal address today. Other speakers were Dr. Virgil E. Dixon, director of the department of research and guidance for Oakland and Berkeley, and Mrs. J. George Short, member of the Oakland board of education. The convention assembled this morning in the Union High School in San Mateo.

SHOWERS SOAK MOST OF STATE

Intermittent showers fell throughout Northern California last night and in all probability will continue tonight and tomorrow, according to a forecast by United States District Weather Observer Beals. While the precipitation is not pronounced, it is being welcomed eagerly by agriculturists and light and power corporations that still are apprehensive over the present abnormal shortage of seasonal rainfall. The present storm is scheduled to visit the entire state with the exception of the southern portion where the rainfall, if any, will be of but little consequence. Among points reporting rainfall and the precipitation are: Eureka, .88; Red Bluff, .34; Sacramento, .28; San Francisco, .35; Mt. Tamalpais, .37; Point Reyes, .35; San Jose, .32; Oakland, .42; San Luis Obispo, .05; Chico, .17; Colusa, .06; Merced, .01; Orland, .27; Oroville, .23; Paso Robles, .23; Rocklin, .20; Santa Rosa, .58; Stockton, .12; Bakersfield, .09.

Don't Blame "Spring Fever" For That "Down-and-out" Feeling

Your Blood Needs a Thorough Cleaning Just Now.

As Spring approaches the impurities that have been accumulating in the system throughout the winter begin to clog up the circulation, causing a general weakness and debilitated condition that is generally known as "Spring fever."

The first symptoms are usually a loss of appetite, followed by a gradually lessening of energy, the system becomes weaker day by day, until you feel yourself on the verge of a breakdown. Children just at this season are peevish and irritable, and become puffy and listless. This whole condition is but the result of impurities in the blood that have been accumulating and make themselves felt more distinctly with the change of seasons. They show that nature needs assistance in giving the system a general house-cleaning.

Everybody just now needs a few bottles of S. S. S., the great vegetable blood remedy, to cleanse it of impurities. It is good for the children, for it gives them new strength and puts their system in condition so they can more easily resist the many ailments so prevalent in summer. S. S. S. is without an equal as a general tonic and system builder. It improves the appetite and gives new strength and vitality to both old and young.

the home of Mrs. H. J. Platts, 3947 Park Boulevard on Wednesday evening. As announced by Mrs. Platts and the other women who are active in this movement to place all of the women of this state behind Johnson's candidacy, a concerted effort is going to be made to give the suffrage vote to California's senator.

Says Mrs. Platts: "The women feel that Senator Johnson has done so much for the women of the State of California that it is up to them to see to it that Johnson carries California by a big majority. It would be a shame for Johnson to go to the Chicago convention and not have the full support of the women of California. With the organization of this first club completed, we are going to aid in the formation of similar clubs in other sections of this city. We are going to make a neighborhood drive for Johnson."

The officers of the newly formed club are: Mrs. H. J. Platts, president; Mrs. E. C. Rathburn, first vice-president; Mrs. L. L. Hubbard, second vice-president; Mrs. Harry Cobb, third vice-president; Mrs. L. W. Sewell, fourth vice-president; Mrs. A. T. Kalas, fifth vice-president; Mrs. Jack Spencer, corresponding secretary; Mrs. Loretta C. Lewis, recording secretary.

JOHNSON CLUB AT ANTIOCH IS FORMED
ANTIOCH, April 9.—A Johnson-for-President Club has been organized here. Dr. W. S. George was elected president; C. G. McDaniel, vice-president; Professor J. T. White and Mrs. A. W. Shedrick, secretaries. The executive committee is composed of Mrs.

Harry Beede, Mrs. Ralph Harrison, J. C. Wilson, Ralph Beede and V. J. Heck. The club has laid plans for a rally meeting to be held here the evening of April 17, at which C. J. Neumiller of Stockton will be principal speaker.

JOHNSON CLUB OF ALAMEDA TO RALLY
ALAMEDA, April 9.—The Hiram W. Johnson for President Club of Alameda is to hold its first rally on the evening of April 15 and J. R. Knowland is to act as chairman. The list of speakers include Mrs. J. B. Hume, J. F. Neylan, James Oliver, P. H. McCarthy and possibly W. H. Crocker.

The East Bay Non-Partisan Club has endorsed Johnson's candidacy for President. E. K. Neils is president of this club.

PENNSYLVANIA LISTS FOR CONTESTS CLOSE
HARRISBURG, Pa., April 9.—Pennsylvania's period of filing nominating petitions for printing names on the ballot has closed primarily on May 18 is closed.

United States Senator Boies Penrose will be unopposed for the Republican nomination. Attorney General Palmer, Democrat, and Edward Randolph Wood of Philadelphia, Republican, are the only persons filing presidential preference.

Practically all of the candidates for Republican national delegates and alternates are unpledged, although four candidates, one of them Mrs. Mary Robert Rinehart, author of "Pittsburgh," have been put forward for delegates at large by the Wood League. The state elects twelve delegates at large.

On the Democratic ballot there are two sets of candidates for all state-wide honors and for many of the delegate seats in the districts. One group is headed by the attorney general and the other by Judge Eugene C. Bonnell of Philadelphia.

JOHNSON SCORES LEAGUE IN EAST

PATERSON, N. J., April 9.—Senator Johnson spoke to two big New Jersey audiences last night. The first was in this city where 3000 citizens heard his indictment of the League of Nations and cheered to the echo his argument in behalf of freedom of speech and of assembly and protection of the bill of rights.

Following the meeting at Paterson, he drove to Passaic where he addressed another big crowd. During both of these speeches he said: "Obvious effort to belittle the result of the Michigan primaries by persons and newspapers opposing my candidacy is resulting in the indictment of the people of a great state for political purposes."

"The charge is made that a great majority of voters in Michigan are foreign born radicals and extreme pacifists. The absurdity of such a charge is revealed by an analysis of the vote. I got a plurality of more than 50,000 in the city of Detroit. My nearest competitor, General Wood, receiving only 16,000 votes in Detroit."

VOTE ANALYZED.
"I got a plurality in Flint, Saginaw, Bay City, Jackson, Muskegon and in virtually every city in the southern half of the state, with the single exception of Grand Rapids. My smallest vote was in the extreme northern peninsula where controlled by the copper interests and mining and other industrial combinations."

"The vote in the rural district was very light, due to a heavy snowstorm which made it difficult for the farmers to reach the polls. In these rural districts strong Wood and Lowden organizations have been at work and great sums of money have been expended."

"The stay at home vote was the vote which organization and money spending could not bring out. Had it gone to the polls the Johnson vote in all the rural district would have been materially larger. The people of Michigan are an intelligent class, representative of the best in average American life."

HOOPER RAPPED.
Senator Johnson's reference to the "gentleman who is running upon all tickets," brought forth shouts of laughter. The Hooper candidacy is regarded chiefly as a jest among the Republicans of the east, and tonight's audiences were fresh from perusing accounts of a mass meeting of Hoopers called yesterday afternoon which was attended only by the Hooper national manager, two of his paid henchmen and a half-dozen newspaper reporters.

Senator Johnson's vigorous campaign in New Jersey will close tonight with speeches at Jersey City and Hoboken. He plans then a trip to Nebraska, opening at Omaha on Monday night. As a result of his tour of New Jersey, a tremendous momentum in his behalf has been set throughout the state and an organization is now at work which, it is believed, will succeed in carrying the state by an preponderant vote as was registered in Michigan.

"No flies on me"

That's 'cause mamma just bought some Fly-Moth Bait and a Fly-Moth Trap and the flies are all gone now.

The bait is a chemical compound, non-poisonous and practically odorless, which lures flies from feasts on babies' bottles or garbage heaps. The trap, made for use with the bait, catches and holds them for good.

Clean Up Flies in Clean-Up Time

There are lots of flies in Oakland. Fly-Moth Traps, set up in various sections of the city during the last few weeks, have caught as many as five pints of flies each in twenty-four hours.

The bait, which comes in quart bottles and dozen and half-dozen cartons, and the traps, which are small and compact and are made of galvanized iron, are easily handled and used. They cost less than other devices for catching flies.

This week traps and bait are being demonstrated in Oakland at The Sixth Street Market The Western Fish Market The Tenth Street Market The Diamond Grocery Co.

Re-enrollment Open to Naval Reservists

Members of the Naval Reserve Force, other than class one, who performed active duty during the war and who have been discharged on account of expiration of enrollment may re-enroll within four months from date of expiration of enrollment, providing such re-enrollment is made prior to the signing of the treaty of peace and are then eligible

for transfer to the regular Navy, securing all the benefits of such transfer as now given. The above decision affects those members of the Naval Reserve Force who were formerly National Naval Volunteers as their enrollment was for a period of three years and expires during the months of April or May, 1929. Further particulars may be obtained at the Navy Recruiting Station, Liberty Hut, Fourteenth street and San Pablo avenue.

GIRL CANDIDATES INVAD CARNIVAL

It takes more than a drizzling shower to dampen the ardor of the young women candidates for Queen of the big Shrine carnival, now being staged at the circus grounds by the Clarence A. Wortham Shows. Last night at 7 o'clock Miss Nora Hansen, candidate of the Moore ship yards, invaded the grounds with her campaign committee. She made a round of the big midway and then her aides took stands near the voting booth.

Miss Emily MacFarland, candidate of The TRIBUNE, also arrived with her aides and began a driving campaign. The contest becomes more exciting every hour. It closes at 10:30 tonight, when Wallace Reid, the movie star, will crown the winner and give her an order for \$350 in gold on the circus grounds at Forty-fifth street and San Pablo avenue.

The standing of the different candidates at 10 o'clock today was as follows: Lucy Goranson, 31,130; Nora M. Hansen, 30,450; Virginia Dixon, 21,341; Lorene Andrews, 7886; Emily J. MacFarland, 7669; Evelyn N. Sanford, 2701; Mildred Miller, 2400.

WOULD TRY SLAYER OF "RED" PORTLAND, Ore., April 9. — A resolution demanding that the slayers of Wesley Everest, I. W. W. leader, who was lynched at Centralia, Wash., following the Armistice Day murders, be brought to trial, was adopted by the Portland Labor Council last night.

Chain Gang Service Looms For Convicted Speed Fiends

Chain gang service is an imminent prospect now confronting Oakland speedsters, according to Chief of Police J. F. Lynch this morning. All able-bodied men, he said, who are given jail sentences for speeding will be sent to the rock pile.

The chief's announcement followed the action of Judge Mortimer Smith's action in sentencing a speeder to five days in jail yesterday, and the promise to repeat that sentence in other flagrant cases. "We have a well-organized and highly efficient chain gang here in Oakland," said the chief, "and we would be delighted to have the assistance of the speeders who dash through the Oakland streets in keeping those streets in repair. It will make no difference whether the convicted speeder is a bank president or a grocer's delivery man."

C. D. Parish, 5642 Mills avenue, was last night thrown from his truck at Twenty-second and San Pablo avenues when a Key Route

electric train struck his machine and almost demolished it. Parish suffered cuts and bruises. Arthur Cozzens, retired from the Oakland fire department, incurred two broken ribs and internal injuries as the result of an automobile accident last night at San Pablo avenue and Twenty-seventh street. Dr. W. J. McCracken, driver of the machine which struck Cozzens, rushed the injured man to the Emergency hospital. Cozzens lost a leg ten years ago while fighting a fire that destroyed the four-story Pacific Press building at Brush and Twelfth streets. He resides at 336 Thirty-third street.

SAN MATEO, April 9.—David Palmer, 151 Lomb street, Ocean View, riding a motorcycle last night collided with an automobile driven by Raymond O'Grady, 218 Elm street. San Mateo, on the State highway near here, he suffered a broken leg and severe cuts and bruises.

Appraisements of Two States Are Filed

Appraisements of two estates, both valued at approximately \$69,000, were filed with County Clerk George Gross today. The estate of Louis H. Bonestell, who died in Berkeley on June 8, 1919, is valued at \$68,875 and consists of 415 shares of Bonestell & Co., \$11,500; collectible accounts, \$14,807; and the balance in real estate and Liberty bonds. After a bequest of \$5,000 to Chesley K. Bonestell and his wife, Mary Bonestell, 2515 Garber street, Berkeley, and smaller bequests to grandchildren, the balance was left to two brothers, Chesley K. and Cutler Bonestell.

The estate of Mrs. Dora Meese, who died on August 13 last, is appraised at \$69,062, and includes the property at 913 Fourteenth street, \$28,012; Liberty bonds, \$19,000; and the balance in cash and promissory

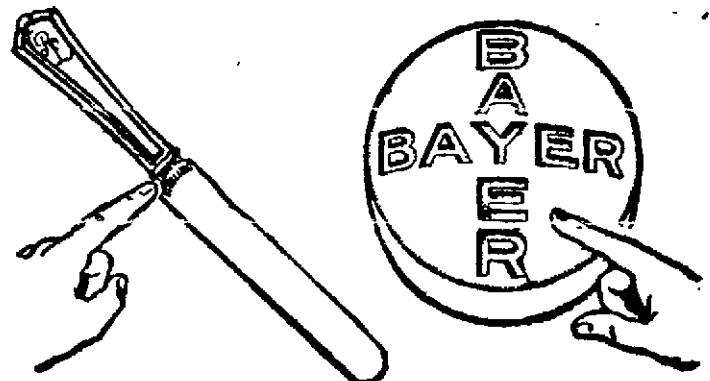

Stone Project Up for Action May 4

ALAMEDA, April 9.—The petition of the E. B. & A. L. Stone Company for the formation of a reclamation district on a portion of Bay Farm island will come before the city council on May 4. The Stone company owns a large holding on the eastern part of the island. The company is reclaiming this land and seeks to have join with it certain other property owners owning adjacent lands. These other property owners have declined to join the reclamation project voluntarily, so the formation of a regular reclamation district is being undertaken by the Stones.

Calomel

a "High Explosive" to the System

Ugh! Calomel sickens! It's horrible! Take a dose of the drug tonight and tomorrow you lose a day's work. Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it like dynamite, breaking it up, causing awful nausea and cramping.

Take "Dodson's Liver Tone"

If your liver is torpid and bowels constipated, or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of Calomel because it is real liver medicine, entirely vegetable, therefore it can not sicken or make you sick. Give it to your children. It is harmless, doesn't gripe and they like its pleasant taste.

Lift Off Corns!

Doesn't hurt! Lift touchy corns and calluses right off with fingers

Apply a few drops of "Freezone" upon that old, bothersome corn. Instantly that corn stops hurting. Then shortly you lift it right off, root and all, without pain or soreness.

Hard corns, soft corns, corns between the toes, and the hard skin calluses on bottom of feet lift right off—no bump!

Tiny bottles of "Freezone" cost but a few cents at drug stores

MY HEART and MY HUSBAND

by ADELE GARRISON

(Continued from Yesterday.)
What Madge's Mistake Disclosed to Her

I had a bad quarter of an hour while Alfred Durkee sat by Rita Brown's side exchanging a rapid fire of amusing nonsense with her when he was not laughing uproariously at her sallies.

No one can deny the girl's brilliancy, nor minimize her caustic, blarney wit. The rest of us found ourselves drawn in spite of ourselves into the conversation, and soon the veranda was the scene of hilarity in which there was neither time nor thought for the quiet beauty of the blossomed vista which had so entranced us a few moments before.

Little Mrs. Durkee joined in the laughter and flying badinage with the rest—she is too accomplished a success to fail in any quip required of her—but her usually round, placid face held worried lines, and her eyes were shadowed with care. Once I caught her eyes and there flashed into them a look of reproach which I felt with compunction was well deserved.

It was upon my advice that she had made an ungainly cord and urgent invitation to Rita Brown and the Fairfaxes that her son had asked her to send. It was my voice which had urged the theory that if Alfred were given the opportunity to see the girl for a week away from the garish studio atmosphere which had always surrounded her he would be cured of the attraction for her this mother dreaded, but I hoped existed only in her imagination.

WAS IT POSSIBLE?

"I'm afraid I was mistaken, he does care," I said to myself. But to my horror, the startled look on the face of Lella Fairfax, who sat next to me, told me that I had spoken the words aloud without meaning to do so.

"I beg your pardon," she said with an interrogative inflection, and a confused, embarrassed air.

"It is I who should crave your pardon," I returned a bit formally. "I was thinking out loud, a most abominable habit of mine, and one for which I can offer no excuse." "You share that habit with a great many other people," she answered with non-committal courtesy, but I saw she had not only heard me, but had understood my meaning. The next instant I saw something else, the flash of her troubled glance at the face of Alfred Durkee bent in laughing attention over Rita Brown, and the sudden involuntary clenching of one lovely, listless hand.

I sat up mentally, my brain alert to this new angle of the situation in which my proffered advice had unwillingly enmeshed me. Was it possible that Lella Fairfax cared for Alfred Durkee? The next instant I had asked myself scornfully why I should doubt the possibility of such an entanglement.

SUDEN SYMPHY
The southern girl, fully as sweet and pretty as her sister, Edith, is young, and, judging from my experience of her sister's interest in Dicky, probably impressionable and romantic. Alfred Durkee, even without the glamor that hedges an army officer just returned from the

About WOMEN

English Rugby football is the latest strenuous game to be adopted by the women in France.

Mrs. Elizabeth Haldane, of Cloan, a sister of Lord Haldane, is Scotland's first woman magistrate.

The Belgian Chamber of Deputies has voted in favor of votes for women 21 years of age, as well as men.

In Norway women employed in the civil service and teaching profession but insured by law of equal pay with men.

One of the many million dollar oil concerns in Texas has a woman secretary, Miss Florence Sterling, who handles her position in a manner that would bring praise to any man.

French battlefields, is an extremely lovable and attractive chap.

My heart went out in sudden sympathy to the girl at my side. Pretty as she was, well born, well bred, cultured, yet she was in no way fitted to compete with Rita Brown's verve and brilliancy.

To frame the two girls in the same setting was like putting a slender stalk of columbine in the same vase with a gorgeous, blazing peony. The discerning eye might finally select the daintier flower, but it would be arrested first by the color of the more-flamboyant blossom.

Dicky had once said with a little chuckling laugh, "Rita Brown will be exhibiting real pictures, worth real money, and having real merit, when the Fairfax girls are teaching water colors in that little hole they come from."

The speech came back to me vividly, together with another of Dicky's characteristic comments, "The Fairfaxes will never set the river afire with their brilliancy, but they're mighty good scouts just the same."

I knew the comments were justified, but with the knowledge came the sudden conviction that Lella Fairfax might thank her for her Lella Fairfax instead of Rita Brown for a daughter-in-law.

A Good Piano Is an Investment Not an Expense

When a person buys a Piano that person is making an investment that carries a higher earning rate than for any other single thing that could be bought for the home.

Good music rests the brain, helps the body to relax, melts away the memory of annoyances that arose during the day, tunes up the spirit and makes one more fit to do bigger and better things. It provides hundreds of little mental vacations during the year—and we all admit that vacations are good investments.

Many a good idea has clicked in the minds of successful people as they listened to the inspiring music of the Piano—these ideas often have been turned into cash.

When company calls and conversation lags the Piano has proved a ready source of entertainment—it is paying back a part of the purchase price.

A good Piano will last a lifetime. The upkeep is negligible. Dependable Pianos come in a wide range of prices. We have a Piano to fit every purse. You say you can't play the piano—nonsense—in this age we have the Player Piano which anybody can play. Remember, buying a Piano is not an expense, but is an investment which pays good dividends—will pay for itself many times over.

TRUCK GARDEN SUIT CONTINUED

Many vegetable growers of Alameda were in Judge E. J. Brown's court today in connection with the suit of Angelo Ghiglione and Pietro Cerruti against Pietro Valleria, Candido Cosso and others as a result of a fistful battle over the handling of truck farms by P. Valleria & Co.

In the fight, which followed dispute as to what kind of crop should be planted on the company's land, Cosso received a broken nose, a broken gland and other injuries. Angelo Ghiglione, accused of inflicting the injuries, has been held to answer to the superior court.

The plaintiffs asked for a receiver, an injunction to prevent further interference in the handling of the land and a division of the property. Judge Brown continued the case until next Wednesday.

ASK THE TRIBUNE

A Department of Questions and Answers

Questions pertaining to the application of the law to specific cases, such as collection of damages, driver's license and property rights, will not be answered in these columns.

Editor The TRIBUNE: Three months ago I and seven other men became dissatisfied with the management of a company for which we were working and turned in a two-week notice. The next day we were "fired." We were all under bonds to the amount of \$500 each. After waiting a few weeks for our bonds to be returned to us, several of us went to the office to inquire about them. To each of us the manager told a different tale. To one he said: "When you left the company your bond was cancelled and it was not necessary to return it." To another: "You will receive your bond as soon as it comes from the home office." To a third: "If you want your bond back your bondsmen will have to see me about it." Now we want to know: (1) Whether we should keep on insisting for the return of our bonds or whether we should let it drop, insisting for the return of our bonds or whether we should let it drop. (2) Whether the company can injure us in any way by retaining the bonds.

The company has a right to keep the bonds, which were given by each individual as a guarantee and which are of no other value. No loss can accrue to you or your bondsmen by the employer keeping your bond.

Editor The TRIBUNE: Would you kindly tell me if Franklin Hospital in San Francisco is sectarian? (2) What is the largest mountain in the United States? (3) Where is Crane Wilbur now?—IVAN.

(1) The Franklin Hospital is not sectarian. (2) Mt. Whitney, California, is the highest mountain in the United States. Its height is 14,938 feet. (3) Crane Wilbur's last given place of residence is New York.

Editor The TRIBUNE: What are the requirements to become a critic or censor for motion pictures, or do the vanguard houses require them? Are the Michigan State requirements different from ours?—STUCKPITZ.

The State of California does not require any censorship of movies, nor do the various playhouses. The National Board of Censorship is not a Federal agency, as the name might imply. It is composed of producers, theater owners and chosen citizens. The country is divided into districts, and when attention is called to some special play, the district board passes upon the merits of the film. As to censorship laws in Michigan, write to the Secretary of State in Lansing, Michigan.

MUTINEERS TO BE SENT NORTH FROM SEATTLE

SEATTLE, April 9.—One hundred and eighty male passengers of the steamer President, who mutinied last night when the vessel docked at Pier D, were under guard of a cordon of police on the Seattle waterfront this morning. They will be put on the first boat sailing for Alaska.

The President arrived here last night with the contingent of 130 men bound for Kani, Alaska, to work in the Libby, McNeil & Libby cannery at that place. Police summoned to "put down a mutiny," thirty-five of the men standing on the deck of the vessel refusing to be taken off. Among these were seventeen recently released from the San Francisco jail on their promise to go with the cannery workers to Kani.

SURVEY EXPENSE VOTED BY CITY

A final appropriation of \$1000 to defray expenses of the water commission of the Eastbay cities, which is concluding its investigation of available water sources for cities on this side of the bay, was made by the city council this morning.

When the appropriation was O. K'd, City Attorney H. L. Hagan was asked for a report on the progress of the investigation and stated that the commission had expected a report last Tuesday from Chief Engineer P. E. Harroun, but that the survey had not been transcribed and would be laid before the commission April 20.

The report of Harroun, Hagan declared, will cover not only the Eel river, McCloud river and Hetch Hetchy supplies, but will contain information on all other possible supplies, although they are not considered applicable to the needs of the cities concerned. As soon as the report is in the commission will lay the facts before the various city councils.

PAYS \$16 RENT, SUBLET'S PART OF HOUSE FOR \$18

Profiteering in rents is not worrying Albert Quillec, according to testimony he gave before Judge Harris in connection with a motion of his wife's attorney for alimony pending the trial of her divorce action.

Quillec said he earns \$20 a week as one of the free markets, being on strike from his regular job, and that it took \$18 to care for himself and two children, who are with his mother. He said he thought the remaining \$2 a week would be enough for his wife and a third child.

Judge Harris asked him if he owned the house at 355 Eighth street, where he has lived alone since his wife left him last Sunday, because, she said, he threatened to beat her. Quillec, "I pay \$16 a month rent and rent out part of it for \$18 a month."

"You are not doing so badly," said the court. "The wife may have the custody of all three children, the husband to pay her \$12 a week and to permit her to live in the home without molestation."

Hagan Report Against Full-Stop Submitted

An opinion by City Attorney H. L. Hagan opposing the requested enactment of the old traffic rule compelling automobiles to come to a full stop behind street cars taking on or discharging passengers, was submitted to the city council this morning by Commissioner Morse, with the latter's approval of the recommendation. The remedy lies, according to Hagan, in observance of the present traffic rules. Chief of Police J. F. Lynch reported that the "full-stop" rule would result in the piling up of traffic in the downtown sections, but that at the same time lives are endangered under the present ordinance.

COULDN'T SHOW LEGS; STAR QUILTS

BERKELEY, April 9.—William B. Hanley, sophomore student, quit a rehearsal of "If I Were King" at the Greek Theater because the costume in the part he was cast for obscured the artistic outlines of his lower limbs. Hanley posed for one photograph in a costume which he thought was not a monk. He was the role of Francis Villon, romantic hero of the Justin McCarthy play. He is a red crosser, coach for the coming show, had another way of thinking.

"Put on your cloak," demanded the coach.

"I should say not," responded the leading man.

"I'm not a monk," Hanley said.

Travers held up the rehearsal waiting for his order to be obeyed, but the leading man refused to be obeyed.

W. B. HANLEY walked indignantly from the stage of the Greek theater to his dressing room and there left behind him all evidence of a fourteenth-century hero.

Last night a peace conference was called and Hanley's "artistic temperament" was appeased only with apologies. Furthermore, an abbreviated cloak was decided upon and the handsome hero can now romp across the stage unhampered by cumbersome draperies.

Friday evening, April 16, is the date set for the English club performance, the first of its kind in four years. Playing opposite Hanley in the leading role will be Miss Kathryn Prather, while some of the best-known campus stars will be included in the cast.

U. C. PROXIMITY CAUSES MAN TO MOVE LIQUOR

SAN FRANCISCO, April 9.—The fact that he lived within one mile distance of the University of California was advanced as a mitigating factor by Tom Williams of Berkeley, who has a tailoring shop at 28 Sacramento street, San Francisco, when he was arraigned today before United States Commissioner Krull on the charge of violating the national prohibition act.

Federal agents testified they had found 268 pints of bonded whiskey in the rear of Williams' establishment.

Williams told Commissioner Krull that he had kept the liquor for his own consumption. The court asked him why he could not keep it in his home.

"I live within one mile of the university of Berkeley," Williams replied. "They have a law over there prohibiting anybody living within a radius of one mile of the college from keeping liquor. That is the reason I stored it in my tailoring shop."

Williams' excuse was of no avail, however, and he was held to answer with bonds fixed at \$500.

Cherry patrons

To add to the great advantages of-

us who don't occasionally have that

Grave of Horse Is
Decorated Annually

GRASS VALLEY, Cal., April 9.—The strange spectacle of the grave of a horse being kept in tidy condition and decorated with flowers and flags is witnessed near Forest Hill, Placer county, southwest of here.

The horse, a common stage animal, on July 3, 1902, was shot dead by a bandit who was attempting to holdup a stage.

Among the passengers was a Chinaman who, following the robbery carefully buried the horse and placed American flags on the grave. Once each year he has repaired to renew his ministrations.

THE
GASOLINE SITUATION

The Necessity of Conservation

There exists today on the Pacific Coast an acute shortage of gasoline. As this Company has pointed out on several occasions, the condition is due to insufficient production of crude oil and a greatly increased consumption of gasoline by industry and by owners of pleasure cars.

Gasoline is a vital factor in the life of the community, industrially and otherwise, and it is of the greatest importance, at this juncture, that it be used with the utmost discretion, that essential requirements may be supplied.

The present is by no means the season of maximum demand, which comes later in the year. The condition, therefore, is likely to be continuing rather than transitory.

Responsibility for meeting the situation does not rest solely upon the oil industry. The public also has a serious duty in the matter.

On its part, the Standard Oil Company is straining its resources and organization to increase the supply of gasoline. In the field it is working for the maximum production of crude oil. In the refinery it is working for the maximum production of gasoline from the crude oil and it is spending large sums of money on equipment for new processes, of its own discovery and development, whereby a still greater yield of gasoline will be obtained.

The point already has been reached where gasoline must be served most carefully. That is a duty of the public. In consumption of this product, essential industries must necessarily come first—pleasure utilization thereafter.

Already the company has taken steps toward protecting the supply for the vital needs of industry which, if lessened, would affect the business life of the community. There is now the danger of a curtailment of supply to non-essentials such as pleasure cars.

The assistance of the public, therefore, is imperative. Until lately gasoline has been abundant, and its lavish and extravagant use has been possible. That time has passed.

Buy as little gasoline as possible.

Use what you must—Waste none.

Furs Worth Fortune Worn By Film Star Held "Investment"

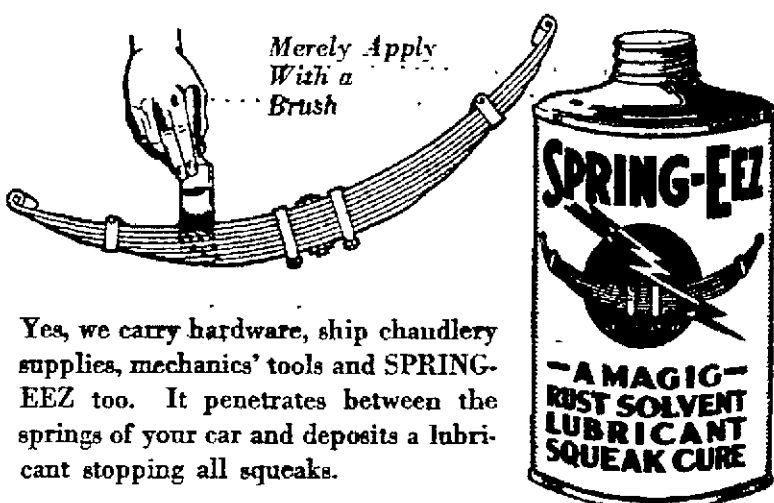

CLARA KIMBALL YOUNG, famous picture star, and the fur coat she says is an "investment." Miss Young will be seen (also the coat) at the American, commencing Sunday, in "The Forbidden Woman."

She Uses Garment Worth Thousands as "Scenery";
Then Keeps It For Future Reference.

Clara Kimball Young, famous film star, didn't buy her new fur coat—she "invested" in it. That's how she terms the purchase. The coat, the most expensive in America and one of the most beautiful in the world, cost thousands. She excused her extravagance by calling it an "investment," and using it in her great production, "The Forbidden Woman." Here it was worth the money. Now—

she wears it. That way, it's worth the money too. Miss Young in her new film masterpiece, a spectacular creation, will be seen next week, starting Sunday at the American. On the same bill will be offered Harry Morey in "The Flaming Cloud." The performances today and tomorrow conclude the engagement of Basil King's "The Street Called Straight"—Advertisement.

Girls Cry for Vengeance; Editor Jeers Parthenaia

BERKELEY, April 9.—Indignation is rife among girls of the University and apologies must be forthcoming from the men before peace and harmony is restored because of a criticism of yesterday's "Parthenaia" printed this morning in the columns of the "Daily Californian," student paper.

From the pen of Editor Norman S. Gallison, comes what the girls term a "most ungentlemanly" treatment of the annual spring festival. Whether the editorial is retaliation on the part of the sterner sex for the co-ed boycott of the annual Skull and Keys running is not known but whatever occasioned it's outburst the college women are planning further boycotting action unless it is retracted.

Here is what Gallison says of yesterday's performance of "The Poet's Answer" in Faculty Glade in which more than 300 pretty girls appeared:

"A raw, penetrating fog cooed among the trees in the backyard of the Faculty Club. Suddenly, with unearthly howls, a platoon of rather grotesquely clad co-eds scuttled across Faculty Gulch, and the 1929 Parthenaia was on."

"Time had wrought wondrous changes. Hardened Parthenaia first-nighters rubbed their eyes, and gazed in awe. Scarcely a gossamer-knee was visible. Where, in years past, the combined clothing of all the Parthenaia would scarcely have sufficed to flag a handcar on the Piggie Trans-Congo Railway, now the mermaid maids were equipped with oilskins, sea-boots, and linen dusters. A radical change, you say?

Ah, yes, perhaps radical, but good withal. In the past, the pneumonia wards of Berkeley hospitals had been obliged to hang out the s. r. o. signs after every Parthenaia. Today, scarcely a shiver was noticeable among the coy maidens.

"Perhaps it would not be out of place at this time to tell what the Parthenaia stands for. It is the inherent insanity of the co-ed, which, lying dormant throughout the long winter, blossoms forth verily with the coming on of the spring season."

"As to the reason for calling the performance 'The Poet's Answer,' the writer is slightly in the dark, as he did not hear his answer, or even what he was asked."

Do You Know That Mazola Can Be Used
For More Different Purposes And
At Less Cost Than Any Other
Food In Your Kitchen?

OF interest to every wide-awake housewife are these important facts about the general use, the quality and the unusual economy of Mazola.

First, know that Mazola contains no moisture. Butter and Lard contain moisture. Mazola is an absolutely 100% pure vegetable fat. It never becomes rancid.

Deep Frying

Shortening

NO fat excels Mazola for deep frying. It is far better and a great deal more economical than lard or compounds. The same lot of Mazola can be used over and over again—even after frying fish and onions. Merely straining makes it perfectly fresh for use as a shortening. It carries no odors or flavors from the foods cooked in it and does not smoke up your kitchen.

THE purity and richness of Mazola best demonstrates itself in the fact that $\frac{1}{4}$ to $\frac{1}{2}$ less Mazola is required than that of butter or lard. This means that your cakes and pie crust will not only be light, rich and easily digested but will cost you less to prepare. Being an oil, the tiresome "creaming-in process" is eliminated. Mazola is always ready for instant use.

Salad Dressings

THOUSANDS of Italians, who certainly know olive oil, use Mazola. Not only because it costs about half that of the best olive oil, but because of its richness, quality and purity.

For French Dressing, Mazola blends readily—and Mayonnaise made with Mazola will keep for weeks without separating.

Once you try Mazola you will never go back to lard or butter for cooking—or olive oil for dressings.

Important to Housewives

One of the most severe comparative tests ever used on a cooking fat gives unqualified FIRST HONORS to Mazola.

Understand the remarkable economy and high quality of Mazola by these figures.

2 lbs. of Mazola	fried	26 lbs. Potatoes
2 lbs. of Lard	"	8 " "
2 lbs. of Compound	"	11 $\frac{1}{2}$ " "

Note: Mazola goes over three times as far as lard; is twice as economical as compound.

FISH

2 lbs. of Mazola	fried	25 lbs. Fish
2 lbs. of Lard	"	15 " "
2 lbs. of Compound	"	20 " "

Note: Compare the figures yourself. Even with frying fish Mazola does not smoke up your kitchen.

DOUGHNUTS

2 lbs. of Lard	"	144 " "

U. S. SEEKS MAN ISSUING CHECKS

SAN FRANCISCO, March 9.—Alleging that Evans A. Powell, former paymaster of the United States Navy, posing as a government agent, cashed bad checks in this city and other places aggregating \$50,000, the U. S. Department of Justice has sent a broadcast description of the man and has warned officers on the Mexican border to be on the lookout for him.

More than \$5000 was obtained fraudulently from San Francisco banks and during his stay with his wife at the Whitcomb Hotel here he is said to have passed shiny checks to pay for lavish dinner parties and hotel expenses. The Whitcomb management says he owes them \$1000.

That he and his wife, a San Francisco girl, whose parents live in the Mission, started in to lead a fast life on March 29, when Powell is said to have begun cashing the bogus paper and that he continued his operations up until the day before "Not Good" notices arrived from Washington to the banks, is the statement of operatives on the case.

The first intimation that Powell had passed bad checks was given when M. F. Polk of the Whitcomb swore out a warrant for his arrest for trying to obtain money on a fictitious check on April 5.

Powell is described as age 30, height 5 ft. 7 in., weight 154 pounds, brown eyes, dark hair with tinge of gray, ruddy complexion.

Funeral Conducted for Mrs. E. H. White

Funeral rites for Mrs. Katherine V. White, wife of Dr. E. H. White of Oakland, were held today at 4 p. m. at the home of her sister, Mrs. Alexander Wilson of St. Paul's Episcopal church, officiating. Interment was private.

Mrs. White is survived by her husband and father, a daughter, Lorraine, two unmarried sisters, Rose and Mary, and two brothers, John and Henry Cranner.

Mrs. White succumbed to pneumonia Wednesday morning after a short illness. She was a daughter of Judson L. Cranner and was 35 years old. Her father was one of the earliest settlers in the state and her husband is a prominent clubman here.

AMERICAN JAZZ TUNE REJECTED BY ARGENTINE

BUENOS AIRES, April 9.—The Argentine has retained his affection for his national dance, the tango, despite the introduction of American jazz music and syncopated melodies in the programs of Argentine balls and dances. This was shown during the balls held in a recent carnival, when tango tunes outnumbered the fox-trot and one-step in a proportion of three to one. Several American waiters, however, are very popular. The Argentines call the syncopated music "Tanguito" tunes.

Some native musicians have grown rich composing tangos. One of the most popular here is called "Pan y Agua" (bread and water). The title of another is translated as "Flower of the Mud."

ALL THE BRAN YOU NEED

combined with the body-building elements in the whole wheat grain and all prepared in a digestible form. In making Shredded Wheat Biscuit the bran (so useful in promoting bowel movement) is retained and scattered along the filmy shreds of baked whole wheat, forming the most perfect of all cereal foods. Two of these crisp and tasty little loaves with milk or cream make a nourishing meal at a cost of a few cents. Delicious with sliced bananas, or other fruits.

A new cream sauce that needs no butter

A cream sauce that makes leftovers wonderfully rich and appetizing! So that your family eats them up to the last bite—and calls for more!

Try a cream sauce made this way and you will want to use the richness of Libby's Evaporated Milk in all your own recipes calling for milk or cream.

To a third of a cup of Libby's Evaporated Milk add two-thirds of a cup of water. Rub a little of this milk into two tablespoons of flour to make a smooth paste. Add the remainder of the milk and water about to boil, slowly stir in the flour paste. The whole should then cook a few minutes to thicken. Stir slowly while thickening and at the last add a quarter of a teaspoon of salt and a few grains of pepper.

Order a supply of Libby's Evaporated Milk from your grocer today and see how this rich milk "from famous pasture lands" helps you save butter!

Nature makes wheat so good-tasting because she wants you to have the benefit of all the body-building, strength-making qualities she puts in each grain.

We use all the wheat grain for Krumbles. We cook it, we shred it, we toast it—

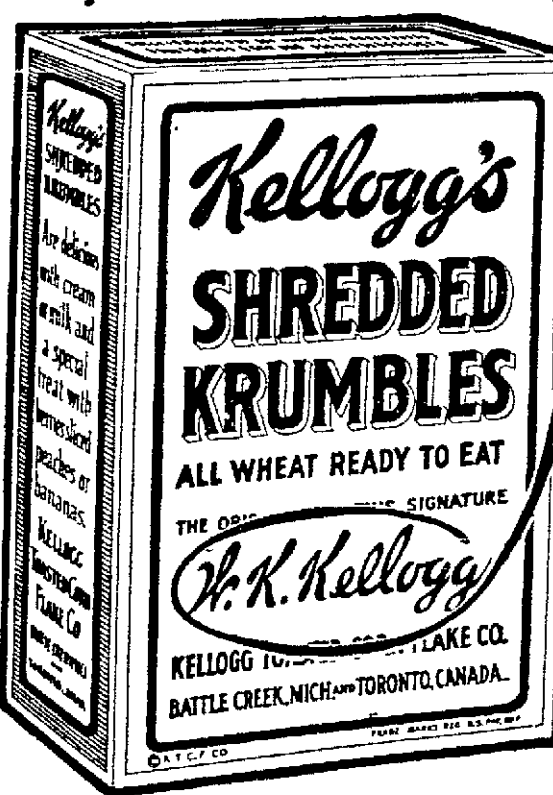

And we give it an added flavor that makes it doubly good—

So that each Krumble is a sweet, tempting, satisfying morsel.

Uniform Coffee
"Always Tastes the Same in the Cup"

Madam, Do You Serve Scolding Men?
Does the Man of Your House "Kick" About His Coffee? Here's the Way to Cure Him:

keep the pot clean and make the coffee every day alike, you always have the same delicious drink.

"Folger's Golden Gate" is all-revealing proof that there is a changeless brand. Once your men folks have had this coffee with its never-changing flavor you will have ended all your coffee-making troubles.

Try three or four cans. That will demonstrate. You'll find the first so delicious that you'll want the others.

Look for a Better, Different Flavor
Expect this coffee to be different—for it is, and better. Its smooth, rich flavor has never been equalled in any other coffee that we know.

It is a non-acid coffee. You can make it "strong" without sacrificing healthfulness.

Buy the first can now and try it. You'll need no further urging. Ask your grocer for "Folger's Golden Gate."

Give him coffee 365 days in the year that tastes the same in every cup. The trouble you've had probably hasn't been due to your method but with the brand you've used.

For brands vary in flavor. In twenty cans you may get twenty different flavors. That's because the world's best new coffees vary and it requires infinite skill to get a uniform result.

We employ experts—men with the skill of artistry—to roast and blend the finest coffees. Expert tasters who have made tasting a life-work check the flavor of every lot with the one before.

Thus "Folger's Golden Gate" Coffee has a never-changing flavor. If you

**John Reed, Author,
Killed in Finland**

CHICAGO, April 9.—John Reed, a New York writer known throughout the country for his authorship of radical propaganda, has been shot and killed in Finland, according to a report received here today by Assistant State Attorney Henry Berger. The last heard of Reed here was that he had been captured by the Finns at Abo, Finland, while trying to escape from Russia with a quantity of Soviet literature. His indictment here was due to his affiliations with the Communist Labor party. Berger, who is active in the prosecution of a number of "reds" indicted here, with Reed among them, would not divulge the source of his information, but stated that he had every reason to believe its authenticity.

GENERAL STRIKE ENDS

MADRID, April 9.—The general strike at Santurce, which was declared on March 31, is ended. Martial law has been withdrawn and the workers have resumed.

**Striking Electrical Men Are
Reported Returning to Work**

Two-thirds of the number of electrical workers who left their employment at the Pacific Gas & Electric company Tuesday following the company's refusal to grant an immediate \$2 a day raise, have returned to their jobs, according to an announcement by company officials. The fifty men who quit the Southern Pacific electric lines are already back at work.

**SAFETY DRIVE
SHOW PLANNED**

Tomorrow is the big day in the fire and accident prevention campaign. Beginning at 10:30 in the morning there will be exhibited at T. & D. theater fire and accident prevention films, which will be educational as well as entertaining. There will be a good laugh for everybody and a good lesson to be learned.

**Forty in Modesto
Plant Reported Out**

MODesto, April 9.—About forty men and maintenance men of the Pacific Gas & Electric Company went on strike here late yesterday in sympathy with San Francisco workers. The power stations of the company here are being run under armed guard. Stormy weather in the mountains will endanger service. Should a power house suffer a breakdown there would be no chance of repairing the break or restoring service and all industries would be compelled to shut down. A heavy storm broke over this section of the valley this morning.

**MAETERLINCK'S
HOME IS ROBBED;
WOMAN SOUGHT**

LOS ANGELES, April 9.—The temporary residence of Maurice Maeterlinck, Belgian poet and playwright, at Santa Monica, near here, was robbed last night and the police of Los Angeles and Santa Monica today began search for a woman porch climber, realizing only a woman would steal the articles the author reported missing. These articles included a pair of silk hose, a silver and gold metal bag, a pearl handled revolver and a number of gold trinkets, all the property of the poet's bride.
